PEONIES

We just had to give this first place, as without question this is the grandest perennial flower we grow in the northwest, so dependable and like so many of the good things in life—improves with age.

Just glance over this selected list. We grow, propagate and sell only the best. Don't hesitate to include as many varieties as you can and remember if you do pay \$1.00, \$2.00 or \$4.00 for a plant, it will prove the cheapest flower you can purchase, as when once established this grand flower will stay with you for life.

See that it has a good chance by being planted in subdued soil and away from trees or anything that will take the moisture and substance necessary for its growth and flowers, remember the flowers are monstrous affairs in proportion to the plant and must be fed well during the year to bring forth the grandest blossoms any plant is blessed with. You can buy our peony roots in the spring or fall—one of the very few things that can be safely set out in the fall.

The plants we send out are substantial divisions and not the little pared down stubs some send out.

Reds

| | Each |
|---|--------|
| ANDRE LAURES—Fragrant magenta red | 40c |
| FELIX CROUSSE—One of the best of the reds | 75c |
| LOUIS VAN HOUTTEI—Velvety cerise red | 50c |
| DELACHEI—Rich purplish red | 50c |
| LA SUBLIME—Rich deep crimson | 50c |
| KARL ROSENFELD—Unsurpassed early brilliant red .. | \$1.00 |
| RUBRA—Old fashioned red, earliest | 50c |

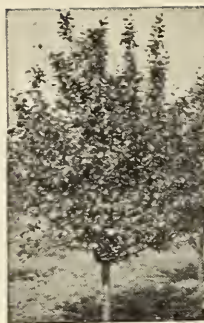

Whites

| | |
|---|--------|
| COURONNE D'OR—Called the famous crown of gold .. | \$1.00 |
| DUCHESS D'NEMOURS—Large sulphur white | 50c |
| DUKE OF WELLINGTON—An ideal cut flower variety .. | 50c |
| FESTIVA MAXIMA—The most popular white grown | 75c |
| MME. D'VERNIVILLE—Exquisite sulphur white | 50c |
| MARIE LEMOINE—A large wonderful white | 75c |
| LA TULIP—Another favorite | 75c |
| BOULE DE NEIGE—White tinged yellow | 50c |
| QUEEN VICTORIA—A favorite standard white | 40c |

Pinks

| | |
|--|--------|
| ACHILLE—Color is flesh | 40c |
| ASA GRAY—Large salmon | 50c |
| EDULUS SUPERBA—A very popular early pink | 50c |
| EUGENE VERDIER—Large delicate blush | \$1.00 |
| FLORAL TREASURE—A superb pink | 50c |
| FRAGRANS—Fragrant violet rose | 40c |
| GRANDIFLORA ROSEA—Fragrant deep rose | 50c |
| HUMEA—Sweet scented even pink | 40c |

| L'ESPERENCE—One of the favorite pinks | 50c |
| MARGUERITE GERARD—Showy pink creamy center | 75c |
| REINE HORTENSE—A very desirable pink | 75c |
| MADAM CALOT—Pinkish white | 50c |
| LIVINGSTON—Very full bloom, pretty soft pink | 65c |
| MATILDE MECHIN—Lilac rose | 50c |
| MONS JULES ELIE—Lovely lilac pink | \$2.50 |
| NEPTUNE—Purplish rose | 50c |
| OCTAVIE DEMAY—Large productive pale pink | \$1.50 |
| RICHARDSON'S GRANDIFLORA—Immense flesh, grand .. | \$1.00 |
| SOLFATERE—A new desirable pink | 50c |
| Bargain Collection.—One each red, white, pink (our selection) | \$1.00 |

APPLES

Maybe it is hard to believe us but we find that apple trees are first rate drought resisters and that many varieties will bear faithfully year after year.

Then consider the ornamental feature, the blossoms alone will repay you for the room the trees occupy.

Cultivate around your apple trees as well as any other planting you make. Keep in mind the planting of corn. Where corn will grow well you can expect apple trees to. You never expect to even mature a stock of corn if planted in the sod, so don't expect a tree to perform a miracle if planted like a fence post.

We have an extra fine lot of transplanted apple trees this year with fine roots and which will please you immensely. Try a good planting of them.

We are pricing the hardy dependable varieties only at a very low figure. Remember these are not slender whips but sturdy trees and you will save a year's time in planting them.

ANISISM—Early bearer, fruit red, good quality.

DUCHESS—Early and dependable bearer.

HIBERNAL—Hardest, an extra fine pie apple.

OKABENA—Originated in Minnesota, good bearer.

PATTEN'S GREENING—Thrifty grower and fine bearer.

WEALTHY—Best for eating, long keeper.

Crab Apples

EARLY STRAWBERRY—An old time favorite.

FLORENCE—Probably the best of the crabs.

TRANSCENDENT—A very popular bearer.

WHITNEY 20—Finest eating and cooking crab.

Price for all apples and crabs all thrifty and transplanted, Each 40c; per 10, \$3.50.

PLUMS

This is a natural plum state. Wild or native plum trees are found in every part of the state and nothing repays one like a liberal planting of plum trees. What we list are absolutely dependable (note also the low price).

Don't forget to see they have a chance in cultivated land, unless you can irrigate with good water.

DE SOTA—The standard hardy plum

WOLF—A very hardy and dependable plum.

WYANT—A thrifty and early bearer.

Price for above plums 75c each; per 10 \$7.00.

Prof. Hansen's Hybrid Plums

The Hansen plums seem to thrive better if left to grow natural in a bushy form. They are very prolific and are not only fine for eating when ripe but extra fine for canning.

OPATA—Very prolific and our first choice. Price 3-4 ft. 75c. Per 10 \$7.00

HANSKA—Thrifty, apricot flavor, 3-4 feet 75c, Per 10 \$7.00,

WANETA—Fine flavor, extra large fruit. Price \$1.00 each.

Compass Cherry

COMPASS CHERRY—Extra reliable and prolific. Price each 75c; per 10 \$7.00.

ASPARAGUS

PALMETTO—Standard, 50 plants 75c; 100 \$1.25.

PEIPLANT

MAMMOTH AND PINEAPPLE—Large plants. Each 15c; per 10 \$1.25.

MINT

Each 15c; per 10 \$1.00.

NATIVE FRUITS

We are real strong for boosting what is found native in the West. These are not only absolutely hardy but healthy. Will stand neglect but respond readily to kindly treatment. Then all are high class ornamentals. Include some or all of this list with your order to protect your other fruit and giving a variety for jellies and canning.

BUFFALO BERRY—Price each 25c; per 10, \$2.00.

BLACK CURRANT—Price each 25c; per 10, \$2.00.

CHOKE CHERRY—3-4 feet 25c; per 10 \$2.00. 4-5 feet 35c; per 10, \$3.00.

SAND CHERRY—Price each 25c; per 10, \$2.00.

WILD BLACK CHERRY—Each 35c; per 10, \$3.00.

WILD OR NATIVE PLUMS— Each 25c; per 10, \$2.00.

SMALL FRUIT

Don't hesitate to plant plenty of the following list of dependable small fruits. Nothing better for jellies, jams and preserves.

All small fruit is composed mostly of water so do not forget to give the plants a chance, not only to live, but to store up enough extra vitality to produce a crop worth while.

Currants

RED DUTCH—An old standard.

VICTORIA—Red, extra good.

WHITE DUTCH—White and sweet.

PERFECTION—New, extra fine.

Price, 25c each; per 10, \$4.00.

Juneberries

NATIVE—Each 25c; per 10, \$2.00.

SUCCESS—New, prolific, juicy fruited. Each 45c; per 10, \$4.00

Grapes

NATIVE OR WILD—Each 25c; per 10, \$2.00.

BETA—New, hardy. Each 35c; per 10, \$3.00.

Gooseberries

HOUGHTON—The old standard. Price 15c each per 10, \$1.75.

CARRIE—New, large, extra. Price each, 35c; per 10, \$3.00

Red Raspberries

SUNBEAM—HANSEN'S original. Price per 10 75c; per 50 \$2.50

OHTA—Hansen's improved. Price per 10, \$1.00; per 50, \$3.00

Strawberries

SEN. DUNLAP—Finest summer variety. Price per 50, 75c; per 100, \$1.25.

PROGRESSIVE—Standard reliable everbearing, true to name.

Price per 50, \$1.25;—100 for \$2.25.

CERTIFICATE OF NURSERY INSPECTION

Office of State Entomologist

Brookings, S. D., Oct. 14, 1921.

THIS IS TO CERTIFY that the nursery stock growing in the Northern Nursery Co., of J. B. Tylor, proprietor of Ipswich, South Dakota, has been inspected by J. W. Bulger, a duly appointed inspector of this office in accordance with the provisions of Chapter 260, Session Laws of 1917, State of South Dakota, and permission is hereby granted said nursery to sell and ship nursery stock which has been officially inspected and found apparently free from injurious insects, Arachnids, worms, and dangerous plant diseases. This certificate is valid until July 1st, 1922, unless revoked.

Resident Nursery Certificate No. 120.

H. C. SEVERIN, State Entomologist.

Shade and Ornamental Trees

We propagate our own trees, taking particular pains to know for a certainty that the parentage is of northern acclimated stock.

We are not competing in price with the southern and eastern nurserymen. We cannot do it, because it takes us a third to twice as long to grow our stock as our nursery is located on the high prairie land, but when we send our products out we know for a certainty it will stand up better, being grown under similar conditions where the tree will be transplanted to. The geranium will grow the year around in southern California, so will the fig and orange tree, but what chance have these plants in the northwest? Now form your own conclusion. Give the trees a chance to root and develop by planting in subdued soil or where they can be irrigated (that don't mean just to sprinkle the top of the ground).

The following prices are for transplanted trees. This means an extra developed root system which means so much to the life and after development of the tree.

A stubby or poor root system may set the tree back years and the chances are it will be dwarfed or not live.

| | Each | Per 10 |
|---|----------------------|--------|
| AMERICAN ELM —(The best) ----- | 4 to 5 feet 30c | \$2.50 |
| | 5 to 6 feet 40c | \$3.50 |
| | 6 to 8 feet 60c | \$5.00 |
| | 8 to 10 feet 85c | \$7.00 |
| | 10 to 12 feet \$1.00 | \$8.50 |
| BOX ELDER ----- | 4 to 6 feet 35c | \$3.00 |
| | 6 to 8 feet 50c | \$4.00 |
| COTTONWOOD ----- | 4 to 5 feet 20c | \$1.75 |
| | 5 to 6 feet 30c | \$2.50 |
| | 6 to 8 feet 40c | \$3.50 |
| | 8 to 10 feet 50c | \$4.00 |
| ASH ----- | 3 to 4 feet 15c | \$1.00 |
| | 4 to 5 feet 25c | \$2.00 |

| Ash, Box Elder, Cottonwood and Elm | 6 to 12 in. per 100, | \$1.00 |
| | 12 to 18 inch, per 100 | \$1.50 |

Cuttings

| | | |
|--|---------|--------|
| Diamond Willow, Golden Willow and Laurel Leafed Willow | per 100 | 75c |
| URAL WILLOW | per 100 | \$1.00 |

HEDGES

| | Per 100 |
|--|---------|
| CARAGANA, Siberian Pea Tree ----- | \$5.00 |
| FLOWERING CURRANT ----- | \$6.50 |
| BUCKTHORN, the best ----- | \$7.50 |
| RUSSIAN OLIVE ----- | \$3.50 |
| URAL WILLOW —From Siberia ----- | \$7.50 |

EVERGREENS

There is not a tree as useful as the evergreen. When fully grown a protection in summer against hot winds and in winter from icy blasts, a comfortable tree for man and beast.

Our prices are for transplanted stock and which are shipped with dirt around the roots. Our past experience has not been the rosiest as when we shipped with roots packed in moss it allowed too much exposure to the wind and sun which an evergreen root cannot stand for a minute. When received see that the roots are firmly plated in mother earth's lap and have a tree that you can enjoy the year around.

BLACK HILLS SPRUCE—Very desirable for ornamental and cemetery purposes and we think the best of the spruces for us to plant.

| | Each | Per 10 |
|--|--------------------------|---------|
| | 12 inch, 60c | \$5.50 |
| | 18 inch, 85c | \$7.50 |
| | 2 feet \$1.25 | \$10.00 |
| COLORADO BLUE SPRUCE | 12 inch, \$1.00 | \$8.00 |
| | 18 inch to 2 feet \$1.50 | \$12.00 |
| COLORADO BLUE SPRUCE (select.) These are the blue | | |
| specimens or shiners..... | 12 inch, \$1.50 | |
| | 18 inch, \$2.50 | |
| BLACK HILLS PINE | 12 inch 50c | \$1.00 |
| | 18 inch 75c | \$6.00 |
| | 2 to 3 foot \$1.00 | \$8.00 |
| JACK PINE | 12 inch 35c | \$3.00 |
| | 18 inch, 50 | \$4.00 |
| | 2 to 3 foot 75c | \$6.00 |
| RED CEDAR | 2 feet each 75c | |

Now some nurserymen scorch the Red Cedar on account that sometimes the cedar rust affects the ripening apple, but I can say personally that the Red Cedar will withstand more droughty conditions than any other tree, after it once gets established.—J. B. Taylor.

Tooting Our Own Horn

Lack of space crowded out the copies of many letters of commendation we have received from our many friends. We have a lot of fine letters from West River and North Dakota folks that speak volumes for our products. If our stock pleases you, drop us a line. We will not use your name unless agreeable to you, if we ever use the letter. We would just as soon receive a word of praise as to get an order and such letters as this: "In all my experience in buying nursery stock, I have never had an order come to me more perfectly and so well selected" makes us think our labors are not in vain. We're for flowers for the living.

TAYLOR'S TREES AND TESTED SEEDS

SPIREA VAN HOUTTEI

Ornamental and Flowering Shrubs

Here you will find the hardiest of all the ornamentals, a few new varieties have been added and the old dependable ones retained.

Be very liberal in planting from this list. The first year's satisfaction in having these associates with you, just make life worth living. Don't lose the best part of your life by not making a liberal planting of the hardy ornamental shrubs.

| | |
|--|------|
| ALPINE CURRANT —A graceful growing ornamental | Each |
| currant | 40c |
| AMERICAN ELDER —Green showy leaves with white | |
| flower | 25c |
| GOLDEN ELDER —Golden leaves with white flowers | 35c |
| Both elders will sometimes freeze to the ground but will make a luxurious growth every season. | |
| AM. WAHOO OR STRAWBERRY TREE —Native, hardy | |
| leaves very showy with brilliant colored berries that hang on the tree all winter, very desirable..... | 35c |
| BARBERRY THUNBERGI OR JAPANESE BARBERRY .. | 35c |
| BUCKTHORN —Very dependable, can be trimmed | |
| to any shape | 35c |
| CARAGANA OR SIBERIAN PEA TREE —Bark and leaves very attractive with yellow pea shaped blossom in early summer, large size | 35c |
| DOGWOOD —Siberian strain, red showy bark with white flowers, very desirable for landscape work | 40c |
| SIBERIAN ALMOND —Prof. Hansen's find, earliest to blossom, extra | 50c |
| FLOWERING ALMOND —Not as hardy as above, flowers a showy white | 35c |
| HIGH BUSH CRANBERRY —A very desirable ornamental quite similar to Snowball | 50c |
| JASMINE —A shrubby climber, extremely hardy, purplish blossoms | 25c |
| PYRUS BACCATA OR WILD APPLE —An upright profuse blossomer with miniature apples in the fall | 50c |
| SYRINGA OR MOCK ORANGE —Not extra hardy, showy white blossoms | 35c |
| SNOWBALL —An old favorite | 40c |
| SNOWBERRY —A native with ornamental white berries .. | 35c |
| TAMARIX —A graceful grower with feathery leaves similar to the Larch, a pink blossom, needs a little winter protection | 50c |
| SPIREA VAN HOUTTEI —The old favorite hardy white, very desirable, extra heavy clumps | 50c |
| SPIREA BILLARDI —With pink blossoms, no collection complete without this desirable ornamental | 50c |
| SPIREA BUMULDA —Rosy colored blossoms, desirable | 50c |
| BUFFALO BERRY —A native strong grower | 35c |
| CHOKE CHERRY —Desirable showy strong growing native | 35c |

Lilacs

No home is complete without some of the lilac family. The newer varieties blossom at an early stage and are really beautiful.

| | |
|---|-----|
| COMMON PURPLE | 25c |
| COMMON WHITE | 35c |
| PERSIAN—Not as strong a grower, graceful and showy .. | 35c |

The New Lilacs

| | |
|--|--------|
| ALPHONSE LA VALLE—Blue blossom | 50c |
| PRES. GRAVY—Another of the blues | 50c |
| MADAM LEMOINE—A large beautiful white | 50c |
| JOSIKAEA—A sturdy purple | 50c |
| VILLOSIA—Light purple | 50c |
| DR. BRETSCHNEIDER—A strong growing white | 50c |
| SEN VOLLAND—A rosy colored blossom | 50c |
| MADAME CASIMER PERIER—Creamy white | 50c |
| LUDWIG SPAETH—A very desirable purplish red | 50c |
| CHINESE TREE LILAC—Grows to be quite a tree, large speciums | \$1.50 |

Hardy Roses

| | |
|---|-----|
| HARRISON'S YELLOW—The standard early blossoming yellow | 50c |
| TAYLOR'S DOUBLE WHITE—A very desirable double white | 75c |
| DIANSA RUGOSA—A semi-double dark red, extra fine, .. | 75c |
| BLANC DE COUBERT RUGOSA—A semi-double pure white | 75c |

Perennial Flowers

No home is quite complete without a good collection of the hardy perennials. Here nature tries to outdo herself in arranging all the delicate colors of the rainbow, exhaling the sweetest of the perfumes and a home without the perennials is like a home without a mother. A little protection in winter helps and a little care to see that weeds and grass does not choke them will repay ere a thousand fold.

| | |
|---|-------------|
| ACHILLEA—A delightful white profuse bloomer, fine for bouquets | Each 25c |
| BLEEDING HEART—With heart shaped red flowers, a favorite | 50c |
| COLUMBINE—Easy of culture and always a welcome flower | 25c |
| GIANT DAISY—A strong late summer blossomer, extra fine | 25c |
| SHASTA DAISY—The best of the summer daisies | 25c |
| GYPSOPHILIA or BABY'S BREATH—Delicate white flowers fine for bouquets | 25c |
| LAVATERIA—Siberian strain, healthy bearer of pink flowers, a fine plant for background | 35c |
| LARKSPUR, FORMOSUM—The old dark blue favorite | 25c |
| LARKSPUR, BELLADONNA—Free and nearly contin- uous light blue | 25c |
| FLATYCODON or JAPANESE BELL FLOWER—(Stake plants at flowering time) extra fine | 35c |
| RAGGED LADY—A very profuse blossomer. Prof. Hansen states that this flower should be in every collection | 35c |
| RUDBECKIA or GOLDEN GLOW—Popular, showy yellow flowers | 25c |
| RIBBON GRASS—Very ornamental and showy | 25c |
| YUCCA—A native evergreen ornamental | 50c |
| LYCHNIS—Easy of culture and hardy, colors red and white | 25c |

| | |
|--|-------------|
| PHLOX—One of the best and showiest of the perennials, blossoms during the hottest part of the summer and early fall when flowers are scarce. Colors red, white and pink | Each 20c |
|--|-------------|

Lillies

| | |
|--|-----|
| FULVA DAY LILY—Tall growing hardy orange colored flower | 25c |
| LILY OF THE VALLEY—Dainty and very sweet scented | 15c |
| SINGLE TIGER LILY— | 15c |
| DOUBLE TIGER LILY— | 20c |

Iris

Truly called the orchids of the garden. All the variety of tints imaginable. There are three divisions, Pumula or early, Liberty or large flowering and Siberian, the last to flower. Very easy of culture and will stand dry weather better than nearly any other flower.

| | |
|---|-----|
| PUMULA PURPLE—The old Flag of Grandma's day | 10c |
| PUMULA BLUE—Very delicate | 15c |
| PUMULA GOLDEN—Very choice | 15c |

Large Flowering Iris

| | |
|--|-----|
| AUREA—One of the best of the yellows | 20c |
| BLUEBEARD—The best of the even shades of blue | 25c |
| CANADA—Pale lavender | 15c |
| DELICATA—Lilac and lavender | 20c |
| FLORENTINA ALBA—White | 25c |
| HER MAJESTY—Soft rose, very beautiful | 25c |
| KHEDIVE—Pretty lavender | 20c |
| LA TENDRESSE Lavender and lilac | 15c |
| MADAM CHEREAU—White, frilled with violet, beautiful | 25c |
| PALIDA DALMATICA—Queen among iris, delightful lavender large | 25c |
| PRINCESS VICTORIA LOUISE—Extremely fine, large and very beautiful | 35c |
| QUEEN OF MAY—Soft lilac rose, rare | 35c |
| SAN SOUCI—Golden and mahogany red very attractive .. | 15c |

Siberian Iris

| | |
|--|-----|
| DISTINCTION—Beautiful blue sprinkled with white | 20c |
| LADY GODIVA—White, flushed rose, very attractive | 25c |
| ORIENTALS—A beautiful deep blue | 15c |
| SNOW QUEEN—White, golden throat, late very fine | 20c |
| SUPERBA—Large violet blue | 20c |

Cut Flowers and Bouquets

During the late spring, summer and early fall months, we have an abundance of beautiful perennial and annual blossoms and can furnish cut flowers, bouquets, sprays and designs for parties, weddings, funerals, etc., upon short notice. We give special values that will please you. Phone or write us. We guarantee you quick service and satisfaction.

TAYLOR'S TREES AND TESTED SEEDS

Dahlias

One of the most satisfactory flowers we know. Blossoms in late summer and fall when other flowers are scarce. We propagate the best in the cactus, decorative and show varieties.

The Dahlia is very easy to grow. The roots we send out are divided and ready to plant. Put them about four inches deep in the ground. Cultivate to keep weeds down and the ground moist. When frost kills the tops, cut them off near the surface, dig the tubers and store them in a cool cellar, where frost will not reach them. Used extensively for bouquets and cut flower purposes.

Cactus Dahlias

FLORADORA—Profuse bloomer of beautiful wine crimson flowers, extra fine.

GEN. BULLER—Rich, deep crimson, tipped with white. Very attractive.

HARBOR LIGHT—Vivid, orange red.

J. H. Jackson—One of the best of the dahlia family, dark red, nearly black.

KRIEMHILDA—A fine shade of pink with a white center
Price for above varieties, 15c each; two for 25c

Decorative Dahlias

CATHERINE DEUER—An extra large flower. Color, glowing shade of red. Extra fine. Each ----- 20c

MRS. CHAS. TURNER—Clear canary yellow, very large and attractive. Extra, each ----- 25c

OBAN—Mauve, large and very free flowering. Each ---- 20c

SOUV. DE GUSTAV DOUZON—Very large, beautiful orange scarlet. Profuse bloomer. Each ----- 20c

QUEEN OF YELLOW—Very fine yellow. Very free bloomer. Each, 10c; three for 25c.

Show and Fancy Dahlias

A. D. LAVONI—A delicate pink. Very desirable. Each, 20c.

BON TON—Deep rich red. A great favorite. Each,----- 20c

CRIMSON GLOBE—Flowers round, crimson with long stems. Desirable Each ----- 20c

FRANK SMITH—A dark maroon, tipped with pinkish white. Each ----- 20c

KEYSTONE—Flowers globular, color purplish red. Fine. Each ----- 20c

QUEEN VICTORIA—One of the finest of the yellows. Long stems. Profuse bloomer. Each,----- 20c

ROSE PINK CENTURY—The largest of the single flowered. Deep pink, on long stems. Sure bloomer. Each ---- 20c

BARGAIN COLLECTION—15 mixed Dahlias, \$1.00.

Gladioli

AMERICA—The standard popular pink. Flowers large and fine for cut flowers.

BLUE JAY—One of the very best of the blues, very popular.

MEADOWDALE—Fine white with blotched throat, very attractive.

MRS. FRANCIS KING—The standard red. Strong grower, extra fine.

NIAGARA—Beautiful creamy yellow, very showy.

Price for Gladioli—Each, 7c. Per 10, 50c.

Flowers for Fall Planting

Tulips and Peonies are two of the flowers that can be set out in the fall. At that time we get in our shipment of Dutch Bulbs and will be pleased to send you a list of the Tulips and the Peonies.

Don't let any nurseryman try to convince you to make any planting in the fall, with the above exception, as it is money and time thrown away and has done a lot to discourage people to beautify their homes. Buy direct from dependable nurserymen and save disappointment and money.

Bedding Plants

ASTERS—Fine for late summer and early fall blossoms, mixed per dozen ----- 35c

PANSY—Thrive best in a protected partial shady place, mixed per dozen ----- 75c

Vegetable Plants

CABBAGE—COPENHAGEN MARKET—Extra fine for early and mid-season.

DANISH BALL HEAD—Late and best winter keeper. Per doz., 25c. Per 100, \$1.25.

TOMATO—JOHN BAER—An improvement of Eariana, early and the best all around tomato grown, very prolific. Per doz., 35c. Per 100, \$2.25.

Vines

AMERICAN IVY—Hardest, most reliable of all climbers. A rapid grower. Strong plants. Each 35c. Per 5, \$1.25.

CLEMATIS—Similar if not the same as the native Clematis. A good grower, having a small white flower and later turning to a white cottony seed. Strong plants. Each 35c. Per 5, \$1.50.

SCARLET TRUMPET HONEYSUCKLE—Best for covering low screens, etc. It is one of the most cheerful bloomers of scarlet flowers and is very desirable for bouquets and decorating. Extra strong plants. Each 35c. Per 5, \$1.50.

WILD GRAPE—Native; makes a good climber for screens, etc. Price each, 35c. Per 5, \$1.35.

BITTERSWEET—Native and an extra fine climber, fruit ornamental. Price each, 35c; per 5, \$1.50.

Bargain Collections and Cheap Prices generally mean little tender slips or dried up plants. I never fail to get stung when I bite for a bargain collection. I bought 1000 peonies a few years ago at a bargain and had three or four plants pull through. It proved the most expensive peonies I ever purchased.

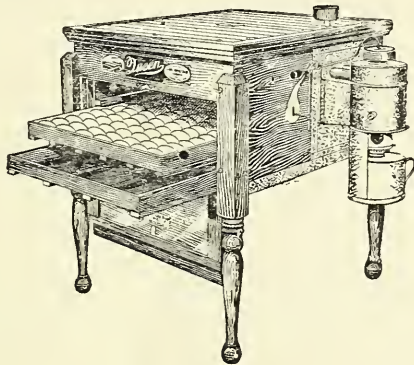

J. B. Taylor.

POULTRY FACTS

If you use or are interested in an incubator, we want to send you some Queen Incubator and Brooder literature. This is not merely a few boards nailed together with a lamp attached and labeled incubator but really a scientifically built machine which is substantially built and which will last. It is a little higher in price than some of the other makes but first cost only and will prove the cheapest in the long run. It will hatch a larger percentage of chicks. A cheap machine may hatch well for the first few times but nine out of ten of them go dead after the second or third hatch. Ask any poultry raiser. Those most experienced would not receive a cheap machine as a gift.

The Queen Incubator is constructed of California Redwood, properly insulated with a patented ventilating system. The unhatched eggs in the average incubator soon makes it a very expensive machine. Then the three weeks worry is worth something.

In a U. S. Government bulletin it states "Cheap machines are less reliable, require more attention and wear out much quicker than good incubators. As the value of the machines is small compared with the value of the eggs during the normal life of an incubator, it is poor economy to purchase a machine which is not reliable."

| | | |
|------------------------------|-------|---------|
| Price No. 2—135 Egg Capacity | ----- | \$37.50 |
| No. 3—180 Egg Capacity | ----- | 44.50 |
| No. 4—275 Egg Capacity | ----- | 57.75 |

No. 21 Style K is not of the high standard as the above but are good substantial machines built to sell at a lower price where the question of price is an important consideration. These are of 130 egg capacity and sell for \$27.50.

Prompt shipments can be made, no delays.

The Queen is the only Brooder stove with automatic control of both check and draft which provides constant and correct heat. Nothing better on the market.

| | | |
|----------------------------|-------|---------|
| Price No. 1—600 Chick size | ----- | \$21.50 |
| No. 2—1200 Chick size | ----- | 26.50 |

We have a new stock of Oyster Shells, Charcoal, Alfalfa meal, Oil Meal and Sal Vet, priced right.

THE BARKER WEEDER, MULCHER AND CULTIVATOR

We can recommend this as the best garden cultivator made. We have used them for years. One boy can do as much with one of them as six men can with hoes.

Write for information and price price for two or more machines.

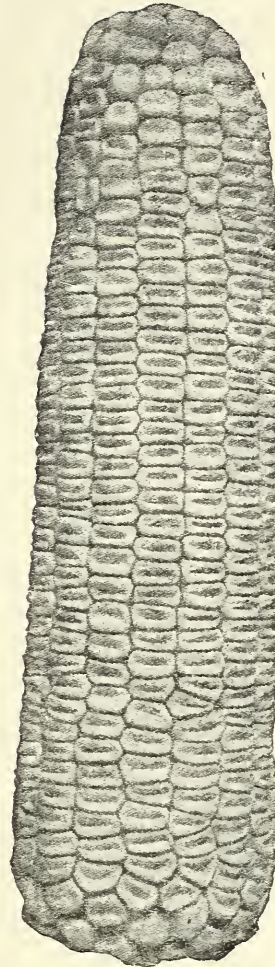

Price \$7.00 to \$14.00 and worth the money.

Cyclone Seed Sower

The best hand machine for sowing broadcast clovers, alfalfa and grass seeds. They soon pay for themselves for the even stand and the seed saved.

Price each. \$2.25.

FARM SEEDS

SEED CORN

South Dakota 86—

This corn was selected from Minnesota 13, by the S. D. Experiment Station for years for earliness. We have grown this seed ourselves for the past two years and believe it is the best yellow dent we grow in the northern part of the state as it matures early, has a good sized stock and is like Minnesota 13, in every respect except that it is surer to mature. This seed was picked before freezing weather and kiln dried and is in the best possible condition and strong in germination.

Price, \$2.50 per bu., 5 or more bus., \$2.00 per bu.

MINNESOTA-13—Originated by the Minnesota Agricultural College. An extra good corn for silage and a heavy yielding yellow dent corn.

Price per bu. \$2.00, 5 or more bu. \$1.75 per bu.

NORTHWESTERN DENT—An extra early red dent corn, fine for hogging off and for cutting up. If you live in a district where the average dent corn will not mature, try the Northwestern Dent.

Price per bu. \$2.00, 5 or more bus. \$1.75 per bu.

EDMUNDS COUNTY WHITE DENT—A variety that has been grown and that has matured here for the past twelve years. This is an extra good corn to hog off. It is not pure as it has a little of the flint corn mixture in it.

Price per bu. \$1.75, 5 or more bus., \$1.50 per bu.

MIXED FLINT—Similar in color to the Rainbow Flint, but ears a trifle smaller. This corn also matures earlier and is extra fine for hogging off. This variety we have grown for quite a few years and can highly recommend it.

Price per bu. \$2.00, 5 or more bus. \$1.75 per bu.

WHITE FLINT—This variety matures very early and like the Mixed Flint is never caught by the early frost.

Price per bu. \$1.75, 5 or more bus. \$1.50 per bu.

Pop Corn

WHITE RICE—Raised in Brown county, the standard popping corn. easy to raise and a good yielder.

Price, 15c per pound; 10 pounds \$1.00; 30 pounds \$2.25.

JAJANESE HULLESS—The finest of the pop corns. The kernels when popped are large and clear white. Very popular.

Price, 25c per pound; 10 pounds \$1.75.

Wheat

MARQUIS WHEAT—The best of the milling wheats but subject to rust. Our Marquis seed is not up to standard this year. This variety has been very successfully grown in the northwest until the past two seasons and we have hopes that we will be able to introduce a rust resisting Marquis wheat another season.

Price per bu. \$2.00, 5 or more bus. \$1.75 per bu.

PEARSON 999 AMBER DURAM—An improvement of the Kubanka and the best of the durams. An enormous yielder and quite rust resisting. The seed we are offering we grew ourselves and it outyielded all other varieties except the Kanred Winter Wheat.

Price per bu. \$2.00, 5 or more bus. \$1.75 per bu.

ACME RUST PROOF WHEAT—This is an amber durum that the state experiment station recommends to plant as the variety that will resist rust. It is a good yielder and a popular durum.

Price per bu. \$2.00, 5 or more bus. \$1.75 per bus.

KANRED WINTER WHEAT—The hardest of the winter wheats. We will have seed from our own fields to sell about September 1st. We sowed some in the fall of 1920 and increased our acreage last fall. It outyielded all the other varieties that we had. If this wheat makes good this year it will prove the best wheat to sow as it matures early and gets away from the hot weather that affects the spring wheat so often. Write us for prices and information later on.

Oats

SIXTY DAY OR KERSON OAT—Recommended by the experiment station for the main crop. Matures and ripens usually before the wild oats do. A good yielder and the surest variety to grow if the season happens to be a little dry.

Price per bu. 75c, 10 or more bus. 65c.

IOWA NO. 103—An improvement of the Sixty Day Oats originated by the Iowa Experiment Station at Ames. Matures early and outyields the other early varieties.

Price per bu. 85c, 10 or more bus. 75c per bu.

VICTORY OATS—A selection and improvement of the Swedish Select Oat. Medium early, a large plump kernel and a heavy yielder. We highly recommend this variety. We can furnish a limited amount of 1920 seed.

Price, 10 or more bus., 85c per bu.

Speltz

SPELTZ OR EMMER—One of the best drought resisting feeds grown in the northwest, a good yielder. One of the best all purpose grains grown, being especially good for horses, cattle, sheep, hogs and poultry.

Price, \$2.00 per 100 lbs.

Millet

BROOM CORN, SIBERIAN AND GERMAN MILLET.

Price per 100 lbs., \$2.50.

Cane

EARLY AMBER CANE—No crop grown makes the feed that cane does and should be more generally grown. A great drought resister.

Price, 10 lbs. for 85c, 25 lbs., \$2.00.

EDMUNDS COUNTY AMBER CANE—Same as above except the seed was raised here and will perhaps mature a little earlier. Price, 10 lbs. \$1.00, 25 lbs. \$2.00.

Soy Beans

WISCONSIN BLACK—An early maturing bean and a good yielder. This seed was grown in Edmunds county and is acclimated. It will mature and be much more satisfactory than the southern seed and worth much more. Plant with the corn, being careful to stir up the corn and beans at the end of every row. This is for hogging off purpose and silage. If seed is wanted plant alone.

ITO SAN—Grown in Brown county, quite similar to the Wisconsin Black except the color of the bean is a light brown. Some claim that it yields a little better than some of the other varieties.

Price, 10 lbs. \$1.50; 25 lbs. \$2.50.

PRICES QUOTED SUBJECT TO MARKET CHANGES.

White Blossom Sweet Clover

This is one of the easiest of the clovers to get started. It is a good yielder of seed and out yields any other clover or alfalfa for pasture purpose and we predict that it will soon be more generally grown than alfalfa.

Stock like it better when pastured close. It starts early in the spring and stays green late in the fall. Another advantage, stock will not bloat on White Blossom Sweet Clover.

Price for scarified northern grown seed per lb. 25c; 10 lbs. \$1.50; 20 lbs. or more, 12c per lb.

Huban Clover

This is the new annual white blossom sweet clover that some seed firms are making such an ado over. We cannot see where it has much of an advantage over the White Blossom Sweet Clover, except the price.

Price per lb., \$1.50; 5 lbs., \$7.00; 10 lbs., \$12.00.

Alfalfa

DAKOTA GROWN—This is acclimated northern and northwestern South Dakota grown seed from old fields that have stood the severe winters and dry summers and is the variety that is generally more planted than any other.

Price per lb., 30c; 10 lbs., \$2.50; 20 or more lbs., 20c per lb.

GRIMM ALFALFA—Grown in Brown county. The hardest of all the alfalfas. We are pricing this at a low figure this year and anyone figuring on a permanent alfalfa field should take advantage of this price and make a good planting.

Price per lb., 50c; 10 lbs., \$1.50; 20 or more lbs., 40c per lb.

Sudan Grass

This is one of the best forage plants grown. We grew several rows last season in a trial plot and it surprised us the growth it made. Can be grown to advantage on clean or new ground by sowing it broadcast or drilling it in and can be cut several times during the summer. It takes about four pounds to plant an acre if planted in three-foot rows and we would be inclined to recommend planting it this way.

Price, 5 lbs. 75c; 10 or more lbs., 10c per lb.

Bromus Grass

BROMUS INERMIS—One of the very best pasture grasses grown, will stand more droughty conditions than any other grass, an enormous yielder. Starts very early in the spring and will keep green, if pastured, the last in the fall.

Price, 5 lbs. \$1.00; 10 lbs. or more, 15c per lb.

Timothy

Grown in the northern part of this state, and acclimated. We are making a very low price as we would like to see more and better grass lands. Sample furnished on request.

Price, 10 lbs. \$1.25; 20 lbs. or more, 8c per lb.

Potatoes

EARLY OHIOS—The standard early potato.

IRISH COBBLER—White, big yielder, very popular.

Price per bu., hand assorted, \$2.25.

PRICES QUOTED SUBJECT TO MARKET CHANGES.

Two Things Worth Knowing

Sprinkle your vines with air slacked lime to keep the striped bugs away.

Spray roosts and chicken houses with kerosene to kill off the red mites.

Eggs For Hatching

BARRED PLYMOUTH ROCKS—The old standbys. Ours are the large growthy kind. This is the only variety we have. Cockerels for sale after Sept. 1st.

Eggs, \$1.50 per setting; \$3.00 for 50.

Read This

The year 1921 has passed and with brighter prospects we are entering the year 1922. All authorities claim that good times are just around the corner and the financial skies are clearing up. There is no more opportune time than now to think and lay your plans to make your home surroundings more pleasant and to plant many of the fruits and perennial vegetables to help lower the cost of living and at the same time better one's health by raising the fresh products which are so necessary for a healthy body and to get the outdoor association with nature which not only satisfies the soul of of one but refreshes the body. In my travels I have noticed so many times that the persons interested in trees, shrubs, flowers and garden are the worth while people. Bring up your children to love the beautiful and you will rarely have to worry about their future. Then there is the money side, the place that is highly improved with nature's plantings is the one that catches the eye of the buyer and a \$50.00 expenditure in adapted and hardy nursery stock will mean generally at least \$500.00 more to the selling price. I know what I am talking about as I have handled real estate for years and have missed many a sale of property because the place looked so bare and uninviting and especially is this true of farm property. If you good people of the country only realized that you are not only losing money but the best there is in life. I think it is safe to say that 99 per cent of the people who have not made much or many plantings around their places are looking forward to the time when they can make a clean-up and go back east or the far west where timber is natural. Whenever I hear this, it always reminds me of what the Indian thought when he stated "The difference between you white men and my race is that when we want the trees and the natural beauties that go with them, we go to them, but when you want them, you have them come to you." Poor Lo.

J. B. Taylor, owner.

TERMS

Cash in advance. Personal checks accepted. All orders f. o. b. Ipswich, S. D. We ship by express unless otherwise directed.

When small orders are requested to be shipped by parcel post, the necessary postage must accompany the order.

We give personal attention to all orders, and are very careful to label all stock true to name. In case any error occurs on our part, we are willing to replace the variety free, but if replacement is not made we shall not be liable for more than the purchase piece.

The prices quoted on seeds are subject to market changes, and as is customary and according to the usages of the seed business, we give no warranty, express or implied, as to the description, quality, or productiveness. If the purchaser does not accept the goods on these terms, they must be returned at once and the money paid will be refunded. All seeds are sold bags weighed in.

We had made our plans to add Garden and Flower seeds this year but these times the best laid plans sometimes miscarry, but next season we expect to add the best in vegetable and flower seeds. All farm seeds and nursery stock will be shipped from Ipswich, S. D.

Our establishment joins the town of Ipswich (Home of the Yellowstone Trail) on the east, and visitors are always welcome.
